

Styrolution Köln GmbH · Alte-Straße 201 · 50769 Köln

To Whom it may concern

19. December 2011

EU-Directive 2011/65/EU– Restriction of Hazardous Substances, RoHS

Confirmation

Lustran®ABS, Novodur® and Triax®

Please be advised that we have reviewed the “RoHS-Directive” **2011/65/EU** repealing the Directive 2002/95/EC. We confirm that thermoplastics resins **Lustran® ABS, Novodur® and Triax®** are in compliance and Styrolution does not deliberately add Lead, Mercury, Cadmium, Chromium-VI, Polybrominated Biphenyls and Polybrominated Diphenylethers to these polymers, nor are these substances present to the best of our knowledge in any of the raw materials used to manufacture the polymers.

Therefore we can confirm that thermoplastics resins **Lustran® ABS, Novodur® and Triax®** will not contain these substances above the threshold limits of 0.01% by weight for Cadmium and 0.1% by weight for Lead, Mercury, Chromium-VI, Polybrominated Biphenyls and Polybrominated Diphenylethers.

EU-Directive **2002/96/EC** on waste electrical and electronic equipment (“WEEE-Directive”) is regulating the recovery and disposal of waste electrical and electronics equipment. Therefore, the compliance with this directive has to be confirmed by the manufacturer of the final parts.

Dr. Wolfgang Schulz-Schlitte
Product Safety Manager

This information of and our technical advice-whether writing or by way of trials-are given in good faith but without warranty and this also applies where proprietary rights of third parties are involved. Our advice does not release you from the obligation to check its validity and to test our products as to their suitability for the intended processes and uses. The application use and processing of our products and the products manufactured by you on the basis of our technical advice and beyond our control and, therefore, entirely your own responsibility. Our products are sold in accordance with the current version of our General Conditions of Sale and Delivery.
